History  
Log Out

Pop out or static navigation bar

This could be a log of previous rides given. And upcoming rides, here you can cancel a ride too from the driver end

(Q: will users get notified of when rides they're signed up for have been cancelled?)

Form:  
→ include if want allow other drivers to sign up (viewable for drivers)

<Trip Title>

Date of Occurrence : < MM:DD HH:MM >

Pickup : < Address >

Dropoff : < Address >

Capacity : < X/X > ← full rides won't show on this list

Additional Notes:

< More details like driver preferences, things to bring, warnings, etc. >
